

HILTI

Hilti
DSH 700 / 900
hand-held petrol saws

Simply a cut above.

Hilti. Outperform. Outlast.

Applications

- Cutting concrete, and natural stone with complete independence from electric supplies
- Cutting curb stones and paving slabs to size
- Perimeter cuts in asphalt and concrete
- Cutting expansion joints in fresh concrete
- Cutting pre-cast concrete components and blocks to size
- Cutting out openings in brick or concrete walls

Advantages

- Maintenance-free cyclone air filter
- Semi-automatic drive belt tensioning
- 2-stroke engine with exhaust pressure wave tuning
- Integrated guide wheels
- Combined half-throttle and choke lever
- Electronically controlled ignition timing
- Variable blade mount
- Vibration absorption system

Highlights

Long service intervals, low fuel consumption, consumable kit included with every tool purchase. Considerably cuts operating costs.

The DSH 900-40 makes light work of cutting concrete pipes with a thickness of up to 150 mm.

Fast and accurate cutting of concrete or masonry blocks on the job site using the Hilti DSH.

The DSH 900-40 in action on the DSH-FSC floor saw cart.

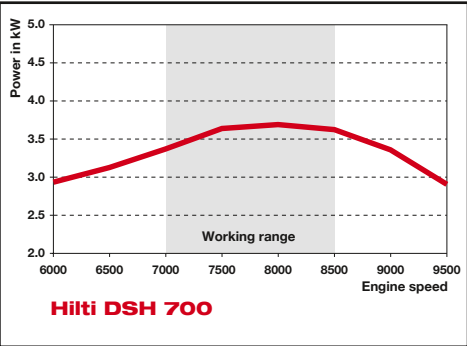

Start, cut – job done.
Cut quickly while cutting your costs.

Experience freedom and exceptionally fast cutting power with the new Hilti DSH hand-held petrol saws. Cutting performance at up to 150mm depth, combined with the reliability and reduced operating costs you expect from Hilti make these machines perfect companions on every job site.

Engine and exhaust:
A powerful match.

Thanks to the tuned resonance exhaust, maximum power is developed at low revs and output remains virtually constant over the entire speed range. High torque in conjunction with diamond blades and abrasive discs perfectly matched to the machine's characteristics guarantee exceptionally high cutting performance.

Sparkling performance.

Hilti diamond blades help your petrol saw achieve top performance and maximum productivity.

Hand-held petrol saws

Ordering designation

DSH 700 35 hand-held petrol saw

①

Petrol saw, tool set, set of consumable parts, operating instructions

DSH 900 40 hand-held petrol saw

②

Petrol saw, tool set, set of consumable parts, operating instructions

Blades and cutting discs

Superior Performance diamond blade

①

for cutting concrete, synthetic or natural stone. Diameters 350 and 400 mm

Universal diamond blade

②

for cutting concrete, synthetic or natural stone. Diameters 350 and 400 mm

Accessories

DSH 1l two-stroke oil

①

Semi-synthetic oil in a practical dispensing/measuring bottle

DSH consumable parts kit

②

Containing: 2 air filters, 1 spark plug, 1 fuel filter, 5 starter cords

DSH container

③

For storing and transporting the petrol saw and accessories

DSH-FSC floor saw cart

④

The practical accessory for extensive floor sawing

DWP-10 water supply unit

⑤

For virtually dustless cutting

DSH hard hat

⑥

With built-in ear protectors and face shield

Productivity plus

Electric diamond cutters for use on mineral materials and steel

High-performance angle grinders for surface finishing

Powerful breakers for a wide variety of tough chiseling jobs

Blades and discs perfectly matched to Hilti machines for maximum performance and productivity
